

Drone Coverage for Forestry & Logging Companies

Ask us about adding drone liability coverage to your Commercial General Liability (CGL) policy today

Through Victor Insurance Managers Inc., Everest Insurance® offers CGL coverage specifically designed to protect forestry and logging companies who utilize unmanned aircraft systems (UAS) in the scope of their operations. In addition, contingent coverage for UAS operations conducted on behalf of the insured is available.

Protection for Drones involved in Forestry and Logging Operations such as:

- Forest Management Planning
- Monitoring Ongoing Logging Work
- Documenting Completed Forestry Operations
- Assessing Forest Plantation
- Detecting and Managing Pests and Diseases

Minimum Submission Requirements

- Must operate the device within applicable FAA, state, and local regulations and guidelines
- UAS maximum of 55 pounds
- Completed UAS supplemental application for operations and/or UAS operations conduct on behalf of the insured
- Five years of currently valued loss runs
- If seeking contingent coverage, a copy of the contract between the insured and the third party providing the UAS service

Coverage Features

- Available sub-limits starting at \$50,000 or to full \$1 million limits
- Coverage can be written on an occurrence basis
- Liability coverage extends to third parties for drone operation

Ineligible classes/exposures include:

- Manufacturers or distributors of UAS, UAS rental operations, Universities or social clubs who provide UAS to students/members and Pilots who do not have the proper Federal Aviation Administration (FAA) certification
